Stratford University (“Stratford”) is committed to our students and our faculty – as well as protecting the privacy and security of their personal information. We are making individuals aware of an incident that may affect the privacy of certain personal information. We are also providing notice of the event so that potentially affected individuals may take steps to protect their information, should they feel it appropriate to do so.

What Happened? On or about August 27, 2022, we detected a cyber incident impacting our systems. We launched an investigation into the incident with the assistance of third-party independent cybersecurity experts. We concluded our initial investigation and determined that on or about August 26, 2022, an unauthorized individual accessed our systems and, as a result, obtained some data, including information containing employee and student information. At that time, we began a comprehensive review of the impacted data to identify all individuals whose information was involved. On December 29, 2022, we concluded our review. We also located the most recent contact information for those individuals to the extent it was available.

What Information Was Involved? The information involved may include, if it was provided to us, first and last name, phone number, address, email address, date of birth, student identification number, passport number, and Social Security number.

What Stratford Is Doing. The security and privacy of the information contained within our systems is a top priority for us. In response to this incident, we took immediate steps to secure our systems and engaged third-party forensic experts to assist in the investigation.

What You Can Do. Stratford is mailing written notice to students and employees whose information was involved in the incident. The notice contains information about the incident, Stratford’s response, as well as information and resources to help individuals protect their information. We are offering complimentary identity monitoring and protection services for individuals whose Social Security number was involved in this incident. We recommend that these individuals enroll in the services provided to increase the likelihood that their information remains protected. If you believe that your Social Security number was involved and want to know more about these services, please call the dedicated toll-free helpline set up specifically for this purpose at 1-888-847-9166 from 8:00 a.m. to 8:00 p.m. Eastern time, Monday through Friday (except holidays).

We encourage potentially affected individuals to remain vigilant against incidents of identity theft and fraud by reviewing account statements. We also recommend monitoring your free credit reports to detect errors or identify suspicious activity. Individuals may also review and consider the information and resources outlined in the below “*Other Important Information.*”

Consider Placing a Security Freeze on Your Credit File.

If you are very concerned about becoming a victim of fraud or identity theft, you may request a “Security Freeze” be placed on your credit file, at no charge. A security freeze prohibits, with certain specific exceptions, the consumer reporting agencies from releasing your credit report or any information from it without your express authorization. You may place a security freeze on your credit report by contacting all three nationwide credit reporting companies at the numbers below and following the stated directions or by sending a request in writing, by mail, to all three credit reporting companies:

Equifax Security Freeze

P.O. Box 105788
Atlanta, GA 30348-5788
<https://www.equifax.com/personal/credit-report-services/credit-freeze/>
(888) 298-0045

Experian Security Freeze

P.O. Box 9554
Allen, TX 75013
<http://experian.com/freeze>
(888) 397-3742

TransUnion Security Freeze

P.O. Box 160
Woodlyn, PA 19094
<https://www.transunion.com/credit-freeze>
(888) 909-8872

In order to place the security freeze, you’ll need to supply your name, address, date of birth, Social Security number and other personal information. After receiving your freeze request, each credit reporting company will send you a confirmation letter containing a unique PIN (personal identification number) or password. Keep the PIN or password in a safe place. You will need it if you choose to lift the freeze.

If your personal information has been used to file a false tax return, to open an account or to attempt to open an account in your name or to commit fraud or other crimes against you, you may file a police report in the City in which you currently reside.

If you do place a security freeze *prior* to enrolling in any credit monitoring service, you will need to remove the freeze in order to sign up for the credit monitoring service. After you sign up for the credit monitoring service, you may refreeze your credit file.

Obtaining a Free Credit Report.

Under federal law, you are entitled to one free credit report every 12 months from each of the above three major nationwide credit reporting companies. Call **1-877-322-8228** or request your free credit reports online at **www.annualcreditreport.com**. Once you receive your credit reports, review them for discrepancies. Identify any accounts you did not open or inquiries from creditors that you did not authorize. Verify all information is correct. If you have questions or notice incorrect information, contact the credit reporting company.
